International Warranty

This watch has been made with great care by highly qualified watchmakers and has been subjected to rigid inspection standards.

The guarantee shall remain valid for two years subsequent to the date of purchase.

Within this time period defective watches shall be repaired or in case that repair should be impossible replaced by an equivalent model upon presentation of a duly completed Certificate of Authenticity and your invoice.

The provisions of this warranty do not extend to the crystal nor strap nor batteries nor to damages attributable to a result of improper use (e.g. violent shocks, extreme temperatures or strong magnetic fields). Handling by individuals not authorized by André Belfort also voids this warranty.

Should your watch require parts or service not covered under the terms of your warranty, a written estimate will be sent for your approval and payment before the work is undertaken.

The guarantee shall be honoured by retailers and Authorised Service Centres.
